

# KCNO

570 KCS - 1 KILOWATT

## ALTURAS, CALIFORNIA AND LAKEVIEW, OREGON

Many thanks for your report of reception of KCNO on Feb. 1, 1954. A check of our log confirms your report. We do not use a directional array here & we did not change power. Reports from Ohio tend to confirm our report of fade. Ohio was apparently bad for a fade. Pennsylvania was fine. Had some reports of reception on clock radios & no outside antenna. We use a Gates BC-1F Transmitter with a 320' tower. Regards.
