Dear Mr. Thomas:

Thank you for your letter regarding reception of Radio Station KDON and this will verify your reception. This is the same station as you received in 1937, except we have move our transmitter location to a small dot on coast called Palm Beach and does not bear any resemblance to the Florida version. We are now licensed to Salinas instead of Monterey. The two cities are separated some 19 miles. We now use a directional antenna beamed northwest and southeast, so very little signal toward you.

Thank you for your interest.
