Your Communication of March 6-25.
received for which accept our thanks.

It affords us great pleasure to know that our concerts are being so well received thruout the western part of the country.

Communications such as yours prove to be our only means of knowing what is wanted by the vast number of broadcast "listeners-in." We carry a complete line of radio and can answer any problem that is bothering you.

Again we thank you and hope that you will drop us a line from time to time regarding the quality of our broadcast.
