

Dear OM:

Your report of reception of KSTN, Stockton, California, U.S.A., dated December 12, 1949, has been verified by comparison with our station log. We are truly sorry that the load of initial construction work has made it necessary to neglect some duties. And those duties that dont produce the dough are the last to get attention. But we do appreciate your report and future reports will be promptly acknowledged.

73

K. M. Hollingsworth,
Chief Engineer.
