Dave:

This is to verify your reception report for Monday Feb 6, 1956 from 0030-0130. What you did manage to pick up thru the static and fading was the right stuff. The song 7 days, the identification of power and frequency and the jabber about Redding and Shasta County was all there. I can't figure the clock ticking unless you got in on WWV somehow. Thanks for the letter, and Best Regards
