Dear Mr. Thomas,

Thank you for your reception report of the test broadcast that was conducted for the benefit of the National Radio Club, on 12-1-75, at 0030-0100 PST.

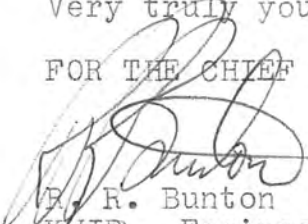

You are correct. We were on at 0015-0030 with our normal maintenance checks. We were using the series of ascending tones, from our Mutual Network loop.

During the period 0030-0100, We used a pre-recorded 800cps tone with station I.D., in addition to the tones on Mutual. Also, music instrumental selections from the album, "Street Fair" by the Magic Organ. In addition, there were two "live" station I.D.'s, denoting test for NRC.

It was our pleasure to conduct this test for your organization. I am also sorry to inform you, that there was no interest shown by any of the staff, toward your enclosed brochure. Thank you again for your interest.

Very truly yours
