

Clear Channel for Clear Listening

David Proctor

Dear Sir:

We are pleased to verify your reception of *March 27, '49*

KX-RX operates from *12⁰⁰ midM* to *12⁰⁰ midM* daily with a power of 1000 watts on a frequency of 1500 KCLS. Our antenna array is a two tower system designed for minimum radiation at 61° true. Station equipment is RCA throughout with a BTALL transmitter and 76B5 audio control.

Thank you for your report and we wish you "good hunting" in your DXing.

Sincerely,

For The Staff

Frank Glass
