

CONFIRMATION

Sept. 20, 1956

This is to confirm your report of reception of radio station KFML and KFML-FM while in the Denver area approximately 6-28-56.

Your reports on both and FM have been quite helpful and very gratefully received. We seldom get reports from mobile FM receivers and were most interested to hear your comments.

Radio station KFML-FM has been on the air since November 1953, KFML-AM went on the air Jan. 18, 1956 with a power of 1,000 watts daytime only. We usually make frequency measurements on the 11th or 12th of each month at midnight Denver time so you might listen for us back there.

Sincerely,

  
Arthur L. Robertson  
Asst. Gen. Mgr.
