Dear Sir:

This is verification of our December 8th special broadcast
12:15-12:45 AM Mountain Standard Time.

Our Xmitter is located at the foothills of the Rocky Mountains
with the great plains stretching to the east.

Our Xmithher is an RCA 1KW with a 256 foot tower. The number of
reports received was only 25. Hope we can get together again for another
test. Incidentally we are on 12:15-12:30 MST the second Thursday of every
month early in the morning for freq. check.

Thanks for yor report, have a lot of good DX's.

Sincerely

Delburt M. Smith
