David F. Thomas  
Proctorville, Ohio

Dear Mr. Thomas:

Thank you very much for your report on our special DX program the morning of November 21st from 12:50 to 2:03 MST.

Our station is comparatively new, having gone on the air March 17, 1947. Our power is 250 watts. We have all RCA equipment. We have a BTA-250 L transmitter which has two 810's in the final. This feeds a vertical one-quarter wave, series-fed tower. We have a rather unique radiating system located atop a special steel base that projects through the roof. The total height of the tower is 200 feet above the floor of the garage which is 6,034 feet above sea level.

Thank you again for your report and for your interest in our special DX program.

Very truly yours,

Bob Fitzmorris  
Chief Engineer
