Dec. 4, 1952

Dear Sir:

I wish to thank you for your report of reception of our signal on Nov. 29, 1952 and I wish to confirm the same.

The program was originated from the transmitter with no necessary facilities, we have only one turntable for emergency use.

We a 1000 watt daytime station with a composite home built transmitter with a 190 foot nondirectional antenna.

We at the present time do not run any schedule equipment test but if we do in the future we will notify the NRA Club.

John F. Roache Ch. Eng.
