Dear Mr. Thomas:

I have checked our log for the NRC Test Program of Tuesday, January 28th, 1958, between 5:30 and 6:00 AM, EST...and I am sorry to say that you must have had some other station at that time. Several other reports mentioned the hillbilly music with female vocalist, but we played all standard orchestral music for the test. Announcement times do not agree, and we had no newscast at this time. I would be interested in finding which station was heard. Thank you for your report. I hope you can pick us up sometime soon.
