Mr. David F. Thomas  
Radio Station WUMS  
Proctorville, Ohio

Dear Mr. Thomas:

We thank you for your interesting and informative observations of WGMA from July 5 to July 13 of this year.

We know that as a rule WGMA has been received northward to West Palm Beach and southward to Homestead with a very good signal strength. Your report proves the fact that we have had a signal as far south as the central area of the Keys.

WGMA operates on 1320 kc with a power of 500 watts. The antenna is a 200 foot verticle radiator six feet above sea level. WGMA is a day time radio station operating from 6:30 A.M. to 6:30 P.M. and stars outstanding radio personalities in the greater Miami area, to mention a few--Slim Somerville, George Daye, Bob Byron and Teri Brentwood.

We thank you again for the very excellent report of reception of this station.

Radiocordially,

Charles C. Castle  
Station Manager
