Dear Mr. Thomas:

If you like, here's a reverification
for the program sent out the morning of
February 15.

Sounds like you have quite a unique
arrangement, and over 3200 replies is an
excellent record in any man's language.

On your visit to Florida, by all means
stop by. We'd be more than happy to meet you,
and of course our KW. will be in by then. In
fact, a few routine tests when the FCC decides
they want to make them are the only thing holding
up operations now. Remember, on that trip to
Florida, we expect to see you.

Very truly yours,

Daniel M. Long
