

RADIO STATION WLOF
Orlando, Florida

2/20/42

Thank you very kindly for your report on our reception on February 17, 1942. This information is very greatly appreciated.

The transmitting equipment of WLOF consists of a Gates 250-A transmitter connected through a concentric line 180 ft. long to 171 ft. vertical radiator which is shunt fed. Power authorized, 250 watts.

This will verify your reception of WLOF on the above mentioned date.

Very truly yours,

HAZLEWOOD, INC.
