21 Feb 1974

Dear Mr. Thomas,

Thanks for your letter. Sorry you can't hear us on nite - we're 4kw then into 5 towers South - Towards Merrit Island and KSC - Wish I could hear WNOE - 2 miles North of your site / studio (Mims, Fla) - KYW dominates nite's. You heard us on 10,000 wts. From 8AM - 8:15AM, on 19 Feb 1974 - This will verify that reception. (Day pattern - 2 towers.)

Might try for our FM - 3kw - 98.3 - (Stereo) - our new Monday morning sign on is 5AM EDT - might help to get us on nights.

Not doing much DX'ing - 'cept listening to some of the 50k' clears for ideas - and other such stuff.

Thank's for the report
