Mr. David F. Thomas  
Radio Station W U M S  
Proctorville, Ohio

Dear Mr. Thomas:

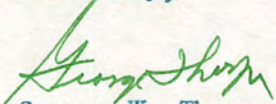

This is to acknowledge with our thanks your summary of field observations made during your visit to this area in July.

Your report of reception of our station conforms very well with our listener audience surveys. Our half millivolt signal is supposed to stop at Rock Harbor down in the Keys but we occassionally get reports that we are being picked up in Key West and a year or so ago we frequently had letters from an American family living in Camaguay, Cuba. However, I imagine our signal there is pretty much overridden now by one of the Cuban stations.

I would be interested in knowing whether you had a special automobile radio or other type receiver.

If you should return to Florida sometime in the future please drop in to see us.

Cordially,

George W. Thorpe  
President and  
General Manager
