Dear Mr. Thomas:

Thank you for your DX report of September 14 stating that you had heard WALB sign on at 7:00 a.m.

A check of our program log for that day indicates that we had five minutes of news until 7:05 then went on with our "Farm Variety Hour" which consists of farm news and hill billy music.

We recently had another DX report from Iowa and two from New Zealand, stating that WALB was heard "down under" on February 28. However, we have had very few reports from your part of the country and are glad to hear that you received our signal.

Very sincerely yours,

*Roger Van Duzer*
