Mr. David F. Thomas
Radio W.U.M.S.
Tampa, Florida

Dear Mr. Thomas

This is to confirm your reception of WAZA on the frequency check of 2-23-67. Glad to hear you got some voice too.

Not much I can add except to say we were trying to push through the SAI and KAT stuff as much as possible, and must have succeeded at times.

Weather was clear and cool at 48 degrees night of test, and I ran the voice pot at plus 2 in the red a couple of brief times at about the time you got the voice and tone. But I don't like to push the VU too much for very long.

Many thanks for your report,

Best Wishes

Ray Read Jr.
