POST OFFICE BOX 869 - MILLEN, GEORGIA 30442

PHONE: 912-982-4142

November 20, 1974

Mr. David F. Thomas  
P.O. Box 11531  
Tampa, Florida 33610

Dear Mr. Thomas:

Thank you for your recent letter.

This will confirm your reception of our signal on a Frequency Measurement Broadcast, conducted from 3:30 until 3:50 AM, October 21, 1974.

We have a 186 foot tower, and are located approximately 3 miles Southeast of Millen proper. As stated by you, we operate with 250 watts of power from local Sunrise to local Sunset.

It was more than passing interest that your letter arrived postmarked Tampa, since I one time in my life, about 1962 I was employed in Tampa, at Radio WINQ, with studios at that time in the Hillsboro Hotel.

Thank you again for your report. Perhaps you'll hear us again. We conduct our Frequency Measurement tests regularly at about the same time, on the third Monday AM of each month.

Very truly yours,  
RADIO STATION WGSR
