Proctorville, Ohio

March 20, 1953

Dear sir:

~~XXXXXXXXXX~~ This is a letter of VERIFICATION for your report on hearing this stations "Courtesy Broadcast" on the morning of Jan. 18. According to my log your report was accurate.

All station equipment is Gates including: Gates BC-1F, 1KW transmitter, and SA-40 console. WIMO began its (daytime) broadcasting activities at 12:00 noon (EST) Nov. 4, 1952.

Winder is a small town of 6000 population located about 47 miles southeast of Atlanta. Main source of income is thru numerous factories producing clothes, shoes, etc. There's also a considerable amount of broiler raising.

Thanking you once again for your fine report, I remain,

William R. Powell
Chief Engineer
