December 25, 1966

Dear David,

This is to confirm that WJJC 1270 was on the air testing Monday morning December 19th. from 3:00 to 3:31 A.M. EST.

I was very pleased with the 50 replies I have received from 19 states and Canada: North Carolina, Kentucky, Kansas, New Jersey, Pennsylvania, Maryland, Virginia, Ohio, Missouri, New York, Iowa, Illinois, Nebraska, Indiana, Connecticut, Rhode Island, Texas, Massachusetts, Georgia, and Ontario, Canada from persons who heard WJJC.

Reception was from poor to very good at times with everyone noting interference from KFJZ Fort Worth and a Cuban station off frequency.

We will soon be moving into new studios and more testing will be done as equipment installation progresses. I hope we meet again soon on 1270. Until then, Good Luck from a deep south radio brother.

P.S. I was pleased to know that you have listened to us when you were in our local area. Drop by and see us sometime. We would be glad to have you visit us.

Sincerely,

William G. Carson, CE

GOOD LUCK!!!W.G.C.
