Mr. David F. Thomas
Proctorville, Ohio

Dear Sir,

Many thanks for the report on our equipment test. I didn't have any idea anyone would hear it. I am planning more tests in the future, as the equipment is not in the best of condition. If you have friends in the West, let them know. I would like to hear from them too.

I thought you would like to see the "page one" story carried in the Covington News. This is the first time a story like this has been run.

Very truly yours,

R.L. White, Jr.
