Proctorville, Ohio

Dear Sir:

In regard to your card dated 7 July, 1947, I am acknowledging your reception report.

We went on the air last March 13, and since then have received many nice reception reports from DX-ers from all over the country. Most of them like yourself receive our "Moonlight Serenade" Program from 12:00 to 2:00 Am-CST.

We have A Raytheon Xmitter 1 KW RA 1000 and feed a four tower directional array day and night.

Thanking you very sincerely for the nice report and the interest you have shown in our station.

I am,

*Bof Brown*  
Chief Engineer
