Dear David,

You certainly did have your problems that night didnt you Dave? I hope you are dried out by now, and in a bit more noraml state.

Your identification was not up to my requirements under normal circumstances, however I am sure that you would and could have given me more than adequate information had other events not kept you occupied during most of my program.

I am sending you a klicker along with this qualified verification, and perhaps we can have another go at it sometime in the future.

Yourstruyl - Ill try again
Yours truly,

D.K. Cederstrom Ch. Engr.
