Dear Sir:

Thanks for your report of reception of this station. We are happy to verify your report and to advise that for the past ten days we have been conducting tests using our new transmitter.

Instances of apparent fading was caused by re-tuning of the transmitter and occasional lapses would be indicated when we left the air for re-adjustment. We want to thank you for your cooperation in giving us a report and will appreciate your continued vigil on 1210 kilocycles as we are starting our service tests after one o'clock in the morning and we hope to have your report which will be acknowledged.

Yours very truly,

RADIO STATION WHBF.
