CHIEF ENGINEER *over*

Sorry that I fouled you
up on the F.M. Having to
postpone the test added to
this difficulty. we operate
A.M. by remote control from
the studio - but have to
have an operator at the
transmitter for F.M. Nobody
was available the other
morning so had to run
the whole show myself!

Thank you for the
very fine report - I hope
the next time you're
there here you'll stop
and see us!
