Dear David,

Thank you for the letter of the 18 th of Nov and the report you had of the 1360 kc frequency. It looks like the tones you heard were that of our test , as the times match our test time. Sorry that we didn't have a better signal that way but WSAI has us beat on power.

Thank you again for the letter, you were the only one to report from the state of Florida. If I get a chance the next time we are on vacation (we go to St. Pete) I may look you up. Tnx again.

^{73's}

Bob Effland
