

RADIOPHONE BROADCASTING STATION WBAA - 9 XE
School of Electrical Engineering
Purdue University
Lafayette, Indiana

Dear Radio Listener:

We have just received your report of the reception of our broadcast from ~~WBAA~~ at Midnight M. on Nov 21-22, 1925 on (9 XE) and we wish to thank you very much for this communication. We are glad that you enjoyed listening to our artists and hope that we may furnish you many more enjoyable programs.

Purdue's Radio Station uses 250 watts power and a wavelength of 273 meters. It is solely an experimental station, constructed and operated by students of the University.

Our schedule is as follows:

Daily (except Sunday) at 9:50 A. M. Market report, weather forecast and Agriograms.

Mondays - 7:00 P. M. Engineering Lecture
7:15 - 8:00 P. M. Musical Program

Fridays - 7:00 P. M. Agricultural Lecture
7:15 - 8:00 P. M. Musical Program

Saturday - 10:00 to 12:00 P. M. Dance Selections from Ball Room of Purdue Memorial Union Building. (Irregular)
After Midnight, Test Programs (Irregular)

We are always glad to hear from our radio friends.

Again thanking you for your report, we are

Sincerely yours,

Station WBAA,

Per S. M. Metcalf
