David F. Thomas  
Proctorville, Ohio

Dear Mr. Thomas,

Thank you for your reception report of WLRP on September 5th and 6th. Your report is accurate and I hereby verify that report.

Your report was interesting as well as informative. In reference to your question about other reports from Ohio, we have received several. Checking through my file, I find reports from Carey, Cincinnati, Lakewood, Cleveland, and Worthington.

For your information, WLRP is using a Raytheon RA-1000 transmitter and a 156' shunt-fed antenna. We are located in the suburbs of New Albany, just outside of the city limits. We are the only station in New Albany, but as you may know, Louisville, Ky. is just across the Ohio River from us, and there are 6 AM stations over there.

Thanking you again, I remain,

Very truly yours,

*E. A. Fischer*
