Proctorville, Ohio

Dear Sir:

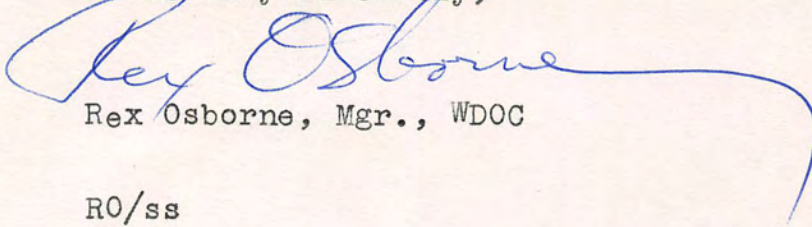

Thank you for your very nice letter of March 26. We are pleased that you have received our station in your city.

We are located on the north end of Prestonsburg. Have been on the air since December of 1957. Collins equipment throughout including transmitter. Getting ready to go night time FM. We have an excellent location....just about the best spot in this section of the state. We are located in a large plot about two miles square in most directions, ground system in wet clay ground, antenna height 326', running half wave.

This letter is to confirm your reception of our station WDOC on March 26, 1959.

Appreciate your interest. Come and see us when you are in our neck of the woods.

Yours very sincerely,

Rex Osborne, Mgr., WDOC
