Mr David M. Thomas  
Proctorville, OHIO

Dear Sir,

Confirming your DX report of Nov. 21st---22nd. Your report is most complete in every respect and I might add its the best one I've recieved so far. You must have gone to quite a bit of trouble to copy WEKY to every detail. I really appreciate the fine report. It tells me just what our station is doing out in the area.

You mentioned something about a whistle on our signal just before the Ky.- Tenn. game. That was a 1000cps tone switched on by mistake by a restricted operator. He didn't know how to get rid of it. ha...

WEKY is the first station in Ky. to use remote control. We're a new station out and out using Gates Equipment. Of course this means that we have only one licnesed Engr. It keeps me jumping all the time to keep things in top shape.

Thanking you again for hthe fine report and here's hoping we here from you again soon.

Respectfully,

Estil R. Anderson  
Chief Engr.
