

wLEX

CENTRAL KENTUCKY BROADCASTING COMPANY, INC.
13TH. FLOOR, FIRST NATIONAL BANK
LEXINGTON, KENTUCKY

August 13, 1952

Dear David F. Thomas,

This is to confirm and QSL your listening to our station on 1340 kc/s on Tuesday July 15th. We did send out the programs at the times you listed along with the advertisements or commercials between the hours you mention of 3:48 and 6:00 PM.

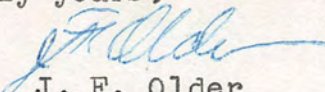

We are 250 watts here.

You are also correct in your statement that this station is being moved.

WLEX has bought WKLX and will be moving over to the facilities of WKLX within one month. WLEX is the station that bought WKLX, and not the other way around. WLEX has sold their equipment to Cinthiana where a new station will be installed in a very short length of time. Frequency and call letters are unknown at the present time.

Whether WLEX assumes the call of WKLX, or keeps the WLEX call or a brand new call is open to what the FCC says next week.

Sincerely yours,

J. F. Older
Chief engineer.
