T. W. CALLISON
VICE-PRESIDENT

W T C O
South Central Kentucky Broadcasting Co.
INCORPORATED
Campbellsville, Kentucky

August 31st., 1953.

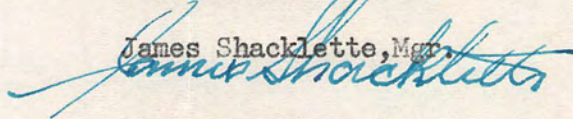

David F. Thomas:
Proctorville, O.,
Dear Sir:-

It is very thoughtful of you to write us that you have been picking up our signals there. It seems from your letter that you brought our station in on long wave, which, if true, is quite a distance for our thousand-watt transmitter to reach out, especially having to travel through some of the mountainous region of Kentucky to reach you.

It is always gratifying to hear that our signals are reaching out well, and we thank you for taking the time to write us.

Respectfully yours,

James Shacklette, Mgr.

P.S. I gave your letter to Harvey Kingsbury, our chief engineer, to file with other such reports at the transmitter.

J.S.
