Radio W.U.M.S.
P.O. Box 11531
Tampa, Florida 33610

Dear David,

We are pleased to verify your report of reception of KLEB,
1600 kHz., on Feb. 7, 1972 from 3:05 to 3:38 am, EST.

We have checked your report against our log and found it to be accurate. Many thanks for the time and trouble you have taken to send us a well detailed report. It was most helpful to us.

As a matter of information, KLEB is a 1000 Watt daytimer, non-directional pattern, using Model BCIG Gates Transmitter. Our tower is 150 ft. insulated type. Our programming consists of French from 6 a.m., until 8:15 a.m., then C & W from 8:15 until sunset sign off.

Our studio and transmitter are in Golden Meadow, Louisiana, located about 30 miles from the Gulf of Mexico and approximately 42 air miles SW of New Orleans, La. The terrain is flat at 1 or 2 feet above sea level.

Thanks again for the reception report!

Sincerely,

Bob Curole
KLEB Broadcasting, Inc.

P.S. Thanks for the nice comments David. Conducted the test myself. All ID's were on cassette cause I had the tone oscillator in the mike channel.
