“The Sound of Quality”

LOUISIANA BROADCASTING SERVICE

P. O. Box 571

900 KC.

OAKDALE, LOUISIANA

Dear Mr. Thomas,

We here at K R E H were real pleased to hear that you had picked us up during our frequency test. You are correct in all the data you got on us and it's to bad we don't carry that far during our broadcasting day.

As far as our going to the North and Northwest we have recieved no reply's from any sources out that way so have no way of telling. Although on our Feb. 4, 1963 test we carried into Southern California.

Mr. Costello who you wrote your reply to is no longer with us, he has gone to a station in New Orleans as an engineer. I am not a first phone man and some of the imformation you gave in the letter is Greek to me, but I wanted to write and tell you we appreciated you listening in for us. And if you hear us again please drop us a line.

Yours truly,

Bob Gustafson
