Dear Sir:

This will verify your reception report of January 16, 1948
3:00 - 4:30 A.M. EST on equipment test program.

Sorry that have waited so long in answering, but as usual
in a new installation, there is a lot of night work, which doesn't
give us very much spare time and just now getting caught up.

Equipment here consists mainly of Gates studio and transmitter
units. Tower- guyed 285'. Program test began January 20, 1948.

Thanks a lot for the report and hope to hear from you again
in the future. A very thorough report.

Sincerely,

RADIO STATION K T R Y
