Dear Mr. Thomas:

It was nice to have your report of reception of our station dated November 30, 1947.

We, at WJDA, particularly appreciate the time and trouble you DX'ers have taken to inform us of the coverage of our signal. Frankly, we are amazed that you should be able to pick us up as we are only a 1000 Watt station with the transmitter located in Quincy Bay completely surrounded with water.

It's been a pleasure to pass through your town on several occasions on my way home to Kansas City, Missouri, so I take pleasure in wishing you the best of luck from New England.

Very sincerely yours,

James D. Asher:cb
