WREB

"Your Key to Good Listening"

10 May 1955

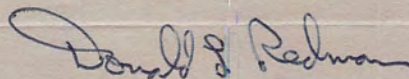

Mr. David F. Thomas
Prestorville, Ohio.

Dear Sir;

Thank you for your report on our DX broadcast. We received responses from all over the states and Canada. Many locations reported stern interference, yet reports quality and modulation were very favorable.

I appreciate the form letter and the comments. From the total received, it is possible to get quite a picture of our night output. Thanks for the help.

Sincerely,

Donald L. Redman
chief Engineer.
