Limiting Amplifier and a R19703AB Northern Electric
Compressor Amplifier.

*I thank you for the nice signal
report David. Your report is
correct. The program you were
wondering about was our
morning mystery. Hi, I am
experimenting with various
locking devices and I
have had them passed by
D.O.T. This is why you
have heard us lately.*

Good Luck + 73

*Alan Watson
CHIEF ENGINEER*
