Dear Mr. Thomas:

I am sorry to be so tardy in answering your reception report of December 21, 1965. We received a large number of reports and I have tried to send along a few comments with most of the verifications.

I have compared your report with our log, repeatedly, and while I think there is a possibility you may have had us for a few seconds, I can't come up with a definite verification. Several of the times you reported hearing 1000 cycle tone don't agree with the log at all, and others might possibly have been a portion of our transmission.

I am happy that you told us what you heard, and I hope that at some future time conditions will be better, so that you can pick up a bit more of WBME.

Sincerely,

Alan D. Vaber  
General Manager
