### Announcement

---

Agreeable to arrangements entered into with the Government as a result of a decision of the United States Radio Conference, held in Washington under the direction of the U. S. Department of Commerce, Radio Broadcasting Station K. O. P., Detroit Police Department, will broadcast on a wave of 286 meters. This wave band has been assigned for Public Safety Broadcasting work exclusively.

Police information, such as stolen automobiles and descriptions of persons wanted, will be broadcasted from this station daily except Sunday, at 1:00 P. M. and 6:30 P. M., Eastern Standard Time. At times between these hours we will also send out alarms in connection with some unusual crime.

Police Departments, Sheriffs, and other Peace Officers operating radio receiving stations, are requested to tune their instruments on 286 meters.

This Department will appreciate it also if members of the Amateur Radio Association and other radio operators will make arrangements to transmit to their local law-enforcement agencies information received from K. O. P.

DETROIT POLICE DEPARTMENT

F. H. CROUL  
Commissioner
