Mr. David F. Thomas
Proctorville, Ohio

Dear Mr. Thomas:

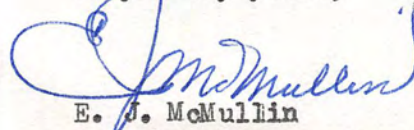

Many thanks for your reception report of our test program on March 11, 1963. Your report is correct.

Our main transmitter operates with a power of 10,000 watts with a three tower directional pattern to the north. The 1,000 watt auxiliary transmitter is non-directional.

The weekly test program is generally broadcast on the 1,000 watt transmitter every Monday morning at approximately 6:00 AM E.S.T.

Again we wish to express our thanks for your reception report and wish you continued good luck in your DX'ing.

Very truly yours,

E. J. McMullin
