

# KEVE

## MUSIC AMERICANA

917 NORTH LILAC DRIVE - MINNEAPOLIS 22, MINNESOTA

Dec. 6, 1961

Mr. David F. Thomas  
Proctorville,  
Ohio

Dear David,

Thank you for your reception report of KEVE. Your report agrees with our logs.

KEVE operates with a power of 5000 watts day-Non directional and with a power of 500 watts directional at night on a frequency of 1440 Kcs.

Our studios and transmitters are located in the same building in Golden Valley, which is a suburb on the west side of Minneapolis.

KEVE is an independent station with programming consisting of music, news and sports. The music is primarily folk balads and some country-western, supporting the "Music americana" motte. We do diverse occasionally into show tunes, and a very limited amount of semi-classical.

Thank you again for your reception report, and I am very happy to add your report to an album containing reports from all over the world.

Sincerely,

Denvy Doty, Chief Engineer

*same station, same location as previous verification, only difference is that the studios have been moved to transmitter location, so official F.C.C. ident must state "Golden Valley".*
