Dear Mr. Thomas:

In regard to your recent letter, I have some information that I believe will at least help to clear up some of your mystery and maybe you can take it from there.

The Mutual Broadcasting Co. recently used our studios to tape up a series of programs about points of interest in the Ozarks, among them the program about Silver Dollar City which is a tourist attraction near Branson, Mo. In this program they gave credit to KGBX. Now, this program has since been aired on the Mutual network all across the country, probably including some FM stations too, so this opens up a whole new avenue of possibilities as to where you might have actually picked it up.

A check of our log showed that we did not air anything similar to this at that particular time so it must have been from some other source.

Thanks for writing and I hope this will be of some help to you.

Very truly yours,

*Kenneth Hargis*

Kenneth Hargis, Chief Engineer
