Mr. David F. Thomas
P.O. Box 11531
Tampa, Florida 33680

Dear Mr. Thomas:

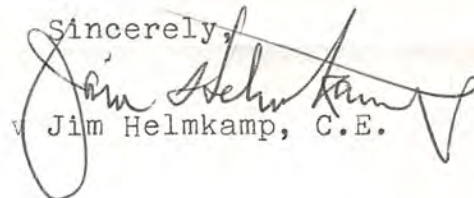

This is in reply to your letter of possible reception of KRMO on the morning of Nov. 18, 1974.

I was most amazed to receive a letter from your area concerning our test program, knowing our chances of getting into Florida were practically nil. Thank you very much for your letter.

It is most probable that the test tones (1000 Hz) that you heard were ours. We were on the air from 1:57 AM until 2:37 AM CST. Test tones were used at 2:01-2:02, 2:06-2:07, 2:10, 2:16-2:17, 2:20-2:21, 2:21:30- 2:23 2:26-2:27, 2:33:30- 2:34:30, and 2:36- 2:36:30. Musical selections and I.D.'s in between.

Thanks again for your letter, I appreciate it very much. Happy Holidays.

Sincerely,

Jim Helmkamp, C.E.
