Dear Mr. Thomas:

This will acknowledge with thanks your reception report on September 30, 1944 and find it correct.

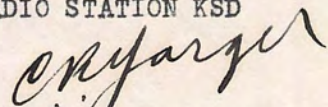

I have delayed answering your letter, thinking perhaps you were making the trip to St. Louis and would pay us a visit. The Series is nearly over now so I guess your plans did not go through.

Interference on 550 kc has become very bad the past twenty years and it is surprising that you were able to hear us at all.

It was quite a pleasant surprise that the Browns won the American League Pennant and plenty of the St. Louisans thought they would beat the Cardinals but the way it looks today, the Cards may win out. We hope that the best team wins.

Many thanks for your letter and we trust it will not be twenty years before you write again.

Sincerely yours,
RADIO STATION KSD
