Dear Club Member:

The response to my DX test February 17, 1975 has been overwhelming. Please pardon an informal letter to you, but with the number of letters received, it would be a great burden to reply to each individually.

I will list the names of cities from which requests for confirmation have been received up to this date.

Several have asked which came first K5BFN or WBFN. I received my first license as a Novice about 1950. After several years of hamming, TV and two way service, I became interested in broadcasting and applied for a construction permit in 1967. The call letters of WBFN were open and thus applied for same.

Just for information, I ran the test myself and the IDs were my voice. Also, I am in a FCC hearing status for a new FM station for Quitman. Hopefully some of you will be able to pick up a new signal from Quitman sometime soon.

Here is a list of Cities in response:

R.J. Edmunds,	Wayne, N.J.	Ernest Cooper,	Provincetown, Ma.
Aldolph Rattay,	Niles, Ohio	David Fox,	Reading, Pa.
