Mr. David F. Thomas

Radio W.U.M.S.

Tampa, Fl.

Dear Sir:

We were very happy to receive your report on your study of radio signals during the eclipse. We have not received any other reports that was made during this time. We are sending you a coverage map of our old directional pattering, we are non-directional now but this will give you some information.

We did not know we had a signal in Tampa, this was news in itself. Hope this map will help in your study.

Yours truly

Quin Hall
Engineer

"Mississippi's Finest"
