"The Voice of Havre"

P. O. BOX 672

STUDIO HOTEL HAVRE

PHONE 888

HAVRE, MONTANA

Dear Sir;

Sorry to be so late in answering but this
was due to a Personnel shakedown -
always glad to hear from you

Confirming your DX letter of 12-28-46
It gives me great pleasure in reporting that this station was on
the air at the time of your DXing. We started our equipment test
December 7, 1946, and our Program test or regular broadcast
schedule on December 15, 1946. For the first night or two we
used music on the test but after a little while we used music
for the equipment test and a tone modulated signal for the
frequency check which we have been conducting nightly from
2:00 A. M. to 2:15 A. M. MST. *Sun Mon weekly*

The equipment in use here is nearly all Raytheon. We use an
RT-250 Transmitter and an RC-11 Console. The tower is 150 Feet
high, series fed and guyed.

In case you aren't familiar with this part of the country, Havre
is a town of about 10,000 population, located about 30 miles
from the Canadian border and right in the middle of the wheat
and cattle raising country.

This is about all I can think of in answering your letter, but
again I wish to thank you for your report.

Respectfully,

Burl W. Bowman
